31st – April 1st

Tucker Mogren

Software Engineer @ Alliant Insurance Services / Chair of the SUNY
Poly Alumni Association Advisory Committee

Utica-Rome Area

Summary

Tucker Mogren is currently a Software Engineer at Alliant Insurance Service and is an accomplished professional with a distinguished career in the insurance industry. A 2019 graduate of SUNY Polytechnic Institute and a 2015 graduate of Lake George Jr/ Sr High School, Tucker has previously held positions at Utica National Insurance Group and IT Room Solutions. Tucker's leadership extends beyond professional settings, as demonstrated by Tucker's 2022 keynote address to the SUNY Polytechnic Institute Convocation class of 2026 and service as a Member of the SUNY Poly Alumni Committee since 2018, where Tucker as also chaired said committee since 2025. Since 2022, Tucker has also served as a Director on the Lake George Alumni Association Board.

Experience

Alliant Insurance Services

3 years 3 months

Applications Developer

April 2025 - Present (9 months)

Remote / NYC

A continuation of the below plus some additional responsibilities.

Associate Applications Developer

October 2022 - March 2025 (2 years 6 months)

Remote

Supporting Alliant Underwriting solutions division.

- Operated as a C# developer within the Microsoft stack, utilizing Pulumi for modern infrastructure management.

- Successfully created a policy-binding service using Entity Framework, Adapter, Mediator, and Repository patterns. This also entailed the integration of messaging features using Mass Transit and Azure Service Bus to enhance communication and service responsiveness.

- Leveraged Azure DevOps to deploy services to on-premises servers, ensuring smooth integration and streamlined management.
- Engineered a robust CI/CD pipeline tailored for deploying cloud-based services on Azure, employing Pulumi for Infrastructure as Code, thereby boosting deployment efficiency.
- Set up and maintained multi-stage environments (Dev, QA, UAT, Prod), along with establishing a hybrid connection to facilitate communication with on-premises services.
- Member of two persons development team to build an integration with a third party policy administration system (Instanda) into legacy systems/databases. Multi phase project.

IT Room Solutions

Software Engineer

February 2020 - October 2022 (2 years 9 months)

Remote/Utica, New York Area

- Gained hands-on experience with Duck Creek Policy and Billing, specifically running on Duck Creek OnDemand (DCOD), fortifying our insurance solutions.
- Applied tools such as Debugger, Trace Monitor, and SQL Profiler to troubleshoot production data errors in both Policy and Billing, ensuring data integrity.
- Managed offshore resources effectively, providing comprehensive status updates to upper management.
- Devised an automated script using SQL and XPath to reconstruct billing receivables for failed transactions, increasing process efficiency.
- Directed the triage of data issues, initiated Service Now Incidents or Problem tickets, and delegated to the relevant group for Root Cause Analysis.
- Remedied Duck Creek shred issues, demonstrating proficiency with XSL and XSD.
- Produced team training videos introducing SQL Profiler, Duck Creek Utility Center, and Duck Creek Author, promoting knowledge sharing and team development.
- Showcased familiarity with Duck Creek Databases such as ExampleData, ExampleIDO, and ExampleIDORRealTime.
- Developed microservices and state machines using C#, RabbitMQ, and Mass Transit (Automatonymous), enhancing our software capabilities.

My technical prowess was further validated with certifications such as Dell Boomi Professional Developer (2020 and 2022) and Dell Boomi Flow Professional Developer (2020).

Utica National Insurance Group
Associate Software Developer
May 2019 - February 2020 (10 months)
New Hartford, New York, United States

At Utica National Insurance Group, I played a crucial role in the IT team as a developer and previously as an intern.

In my role, I:

- Spearheaded the development and maintenance of the Duck Creek Policy Administration System, enhancing the efficiency and effectiveness of our policy services.
- Collaborated closely with a dedicated team of developers, successfully navigating on-shore and off-shore dynamics.
- Managed and resolved production level issues across a range of severity levels, mitigating disruption and maintaining system integrity.
- Utilized a suite of tools including Data Tester, Trace Monitor, TSV Debugger, and Example Util, facilitating comprehensive triage of production bugs.
- Conducted root cause analyses, providing insights and recommendations to prevent future system glitches.
- Employed SQL Server Management Studio – Stored Procedures to transition policies between various environments for thorough unit testing.

My expertise was further honed through the Duck Creek Policy Book Camp, where I achieved a Mastery Completion of 97%.

Prior to my developer role, I gained invaluable experience as an IT Intern at Utica National from November 2016-August 2017 and May-August 2018, laying a solid foundation for my subsequent responsibilities.

Student Government at Utica at SUNY Polytechnic Institute
3 years 8 months

President, Student Government at Utica
April 2018 - April 2019 (1 year 1 month)
Utica, New York Area

As President of SUNY Poly, Utica's Student Government, I led a team dedicated to advocating for students and enhancing campus life:

- Chaired executive board and cabinet meetings, ensuring effective operations and decision-making.

- Introduced a Director of Diversity and Inclusion to promote inclusive initiatives.
- Contributed to the launch of SUNY Poly Engage, expanding our outreach.
- Successfully advocated for a board-based fee proposal at the SUNY Student Assembly.
- Enforced student travel protections through legislative updates.
- Collaborated with the Provost's office to publicize the SUNY Poly academic honor list.
- Pioneered a digital financial tracking system, improving budgeting and purchase processes.
- Managed interim responsibilities of vacant executive roles and prepared meeting agendas.
- Fostered strong relationships with SUNY Poly administration, representing student interests.
- Regularly updated a faculty advisor and the Vice President of Student Affairs on student government status.
- Supervised three directors, ensuring smooth student government operations.
- Served as a voting delegate at SUNY Student Assembly conferences.
- Most importantly, I served as the students' voice at all decision-making levels.

This role was recognized with the "Student Government President of the Year" award from the SUNY Student Assembly and the "Student Life Award" from SUNY Poly.

Senior Editor, Genesis Yearbook
August 2017 - May 2018 (10 months)
Utica, New York Area

Served as the de facto President of the organization, overseeing the day-to-day management of photographers and designers to ensure timely publication of the university yearbook. Additionally, coordinated with our external Jostens representative. Furthermore, I also represented the organization on the Student Government level.

Junior Editor, Genesis Yearbook
August 2016 - August 2017 (1 year 1 month)
Utica, New York Area

Served as de-facto Vice-President of the organization. Filled in for Senior editor and assumed all those duties in their absence. Was delegated specific projects from Senior Editor.

Photographer, Genesis Yearbook

September 2015 - August 2016 (1 year)

Utica, New York Area
